 AlwaysAnAnswer

"Education is the key to being the best doctor one can be. I spend much of my free time traveling around the world to continue to grow and advance in order to bring my patients the most comprehensive treatment possible."

- Dr. John

Dr. Wittle Has Lectured Nationally & Internationally to Doctors and the Public on Applied Kinesiology, Diet And Nutrition, Athletic Performance Enhancement, How Emotions Affect People, And Many Other Wellness Topics

Dr. John's Guiding Principles:

"To truly achieve and maintain optimal health, we must not only address the structural, nutritional and emotional components of a problem, but also remove those stresses that cause the body to malfunction."

"My goal is to assist one in finding and then maintaining health so you can spend more time enjoying life from a centered perspective. I expect results quickly and solidly. I strive to correct problems rather than mask the symptoms."

"In most cases, your body knows what is wrong and what it needs. I search to find out what this is so that it can do its job - keeping us happy, healthy and full of life!"

Words From Patients:

"Thank you Dr. John, you were my last resort, I am finally doing better"

"You really go above and beyond for your patients"

"Thanks to you my daughter can excel in sports again"

"I truly appreciate how you have helped change my life!"

"Thanks to you I am off most of my medications"

"You really help to see the big picture of how everything relates"
